

Maryland COVID-19 Vaccination Plan

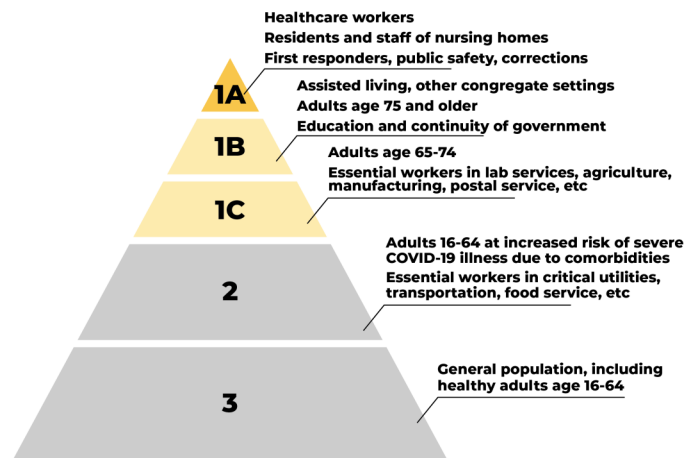

How Do I Get Vaccinated Against COVID-19?

Getting a COVID-19 vaccine will depend on several factors, and supplies will be limited initially. Not everyone will be able to be vaccinated right away, but the federal government has invested in manufacturers' ability to quickly make and distribute vaccines. This will allow everyone to get vaccinated as soon as large quantities of the vaccines are available.

How Will Vaccinations Be Distributed?

Maryland will distribute the vaccines to four different priority groups in order of relative risk.

Where Can I Get Vaccinated? Will I Have to Preregister?

You will have a choice of several locations where you can go to get the COVID-19 vaccine. Each group will receive more details when the vaccine is available.

Will I Have to Pay for the COVID-19 Vaccine?

Vaccine doses purchased with U.S. taxpayer dollars will be given to people at no cost. However, vaccination providers will be able to charge an administration fee for giving the shot to someone.
